Subject: Ecology files & GEMMS model update

Hi Michelle,

Good news – Ecology has located many more files related to our first requests and will be sharing them shortly.

On the GEMMS model, Ecology has indicated that it would be a significant work effort to respond to our request for the calibrated GEMMS model. However, they may be able to conduct GEMSS runs for us using the Deschutes R. concentrations that we would like to test. I have a call with them scheduled for 11/27, and after that, we will decide what to do. For the technical approach – let's work under the assumption that Ecology will do the runs for us. In the

meantime, if you have any thoughts you would like me to share with Ecology before my 11/27 call with them, feel free to let me know.

Thanks,

Miranda Hodgkiss
